

Title: Docker Delivery Manager
Reports To: Director, Cloud Consulting

CleanSlate is a cloud consulting and software asset management company that uses technology solutions to make our clients great. We are looking to add a Docker Delivery Manager to our team. If you are passionate about developing quality solutions and thrive in a fast paced, forward-thinking environment, then this could be the ideal opportunity for you. Because we are a small team, the expectation is that you will bring your experience as a strength. You will work independently but will have a team of high performers to lean on when necessary.

You will apply your customer facing sales, technical, consulting, and commercial experience to position, scope, and lead the delivery of services which enable successful adoption of the Docker platform. You will be a key leader within the Enterprise Applications team and work collaboratively with Sales, and Consulting Services leadership to drive customer success. You will enable project success through clear expectation setting, attention to detail, and thorough delivery handoffs with consulting clients.

If you feel you are a fit for our team and have the technical experience required, please email us your resume!
Jan.Mewhinney@CleanSlateTG.com

We are looking for strong experience with the following:

- Articulating and understanding the value of Docker services within prospective and existing enterprise accounts by mapping customer requirements to the Docker Services portfolio.
- Executing project scoping activity with prospective customers and produce proposal, level of effort, Statement of Work, and resource plans.
- Planning and leading teams of resources involved in scoping professional services for our most complex solutions and the largest customers.
- Working harmoniously with clients on project scoping to ensure project and customer success.
- Being recognized by customer as a trusted advisor in technology adoption and enablement decisions.
- Helping propagate skills and experience through development of repeatable assets (methodologies, blueprints, tools, white papers, knowledge articles etc.).

Minimum Qualifications:

- Strong presentation skills: Showing the value, capabilities, and differentiators of complex service solutions using methodologies and service offerings.
- Can talk knowledgeably and credibly about service delivery issues, challenges, strategies, approaches.
- Experience as an Architect, Consultant, or Project Manager highly regarded.
- General knowledge of cloud architecture as well as on-premises IT landscape.
- BS degree in Computer Science, Mathematics, Engineering or equivalent professional experience.
- Project Management certifications such as PMP and PRINCE2 highly regarded.
- Experience and certification with Agile/Scrum based delivery methodologies highly regarded.
- Experience with the virtualization and cloud services (VMWare, Azure, AWS, GCP, Digital Ocean etc).

What we have to offer:

- Solid benefits including medical, dental and 401k
- Unlimited PTO
- Fun work environment
- Competitive salary
- Paid technical training and certification
