

CleanSlate Technology Group (CSTG) is a leading multi-cloud technology consulting firm specializing in building modern applications and products that move businesses forward. From custom cloud-native application development to modernized legacy systems, we develop and deploy solutions that deliver greater agility, faster speed to innovation, and more resiliency to handle whatever the future brings. We're a team of multi-cloud natives with certifications across AWS and Azure; helping our customers solve their business problems with a modern cloud approach. At CSTG, we believe that when you combine the power of technology with brilliant ideas, the sky's the limit.

## WHAT DOES YOUR TEAM LOOK LIKE:

Our Cloud Delivery team helps to provide advisory, architectural, and implementations for our customers and helps drive their cloud journey. We are solution-driven technologists that have a passion for solving our customers' challenges with cutting-edge technologies. Our team members need to be constantly curious and unparalleled problem solvers to tackle the exciting and complex work our clients bring to us.

## WHAT DOES YOUR ROLE LOOK LIKE:

Are you passionate about building cloud-based solutions and thriving in a fast-paced environment? Do you enjoy solving problems?

The ideal team member for CSTG is someone who can deliver technical solutions in a modern way while leveraging cloud-native development and having a passion for building applications. The primary focus of a Mobile Developer is to help our clients build reliable, performant, and scalable solutions to help drive our customers' business forward.

- Knowledge and passion for building mobile applications to deliver value to our clients
- Leverage the latest front-end technologies, tools, and frameworks to produce quality products
- Mobile development experience (iOS and Android) experience with at least two apps that are on the app store or play store that you are proud to discuss with us
- Experience with iOS frameworks such as Core Data, Core Animation,NSUserDefaults, etc
- Hands-on experience in Node.js, React Native, Android/iOS App development, Firebase, and web services (Java, JavaScript, HTML, XML, OOA, OOD, DS, DB Concepts)
- Proficient with Swift, some experience with Objective-C, and/or knowledge of SwiftUI and Combine
- Experience with modern ALM and Source Control toolings such as GitHub, Azure DevOps, Jira, and Asana
- Experience with integrating SDKs to native applications
- Expert knowledge of OWASP Top 10 and security best practices
- You are a life-long learner, enjoy new challenges, and have a creator mindset

If you feel like you are a fit for our team and have the technical experience required, please email your resume to [TalentAcquisition@cleanslatetg.com](mailto:TalentAcquisition@cleanslatetg.com)
